

Contract Management

Arranging, negotiating and managing energy contracts for our clients is what we do best.

More than 500 businesses around the UK use Indigo Swan. Our tools and advice allow businesses to manage their energy easier, quicker & more efficiently to save time, money & resource.

We work hard to keep our clients happy with a happiness rating in 2017 of 100%, we'd love you to join them...

Data Cleanse

First, we collect & cleanse your data to get an exact understanding of the contract(s) in your portfolio, whether it's one or a few thousand.

Benchmark Report

Then, we search the market for contract options available to you from around 20 energy suppliers, collate our findings and present them in a simple report. This research is free, you have no obligation to progress with our findings.

We've made savings for our clients from a few hundred pounds to £120k.

Ongoing Guidance & Support

Once decided, all paperwork will be prepared for you to check and sign. We take care of all queries throughout your contract, so you won't have to sit on hold for ages trying to get a reply from a supplier. We run over 160 checks to make sure things are running smoothly and we'll let you know in good time about renewing.
